M-550 Three-functional Touch Key Selector

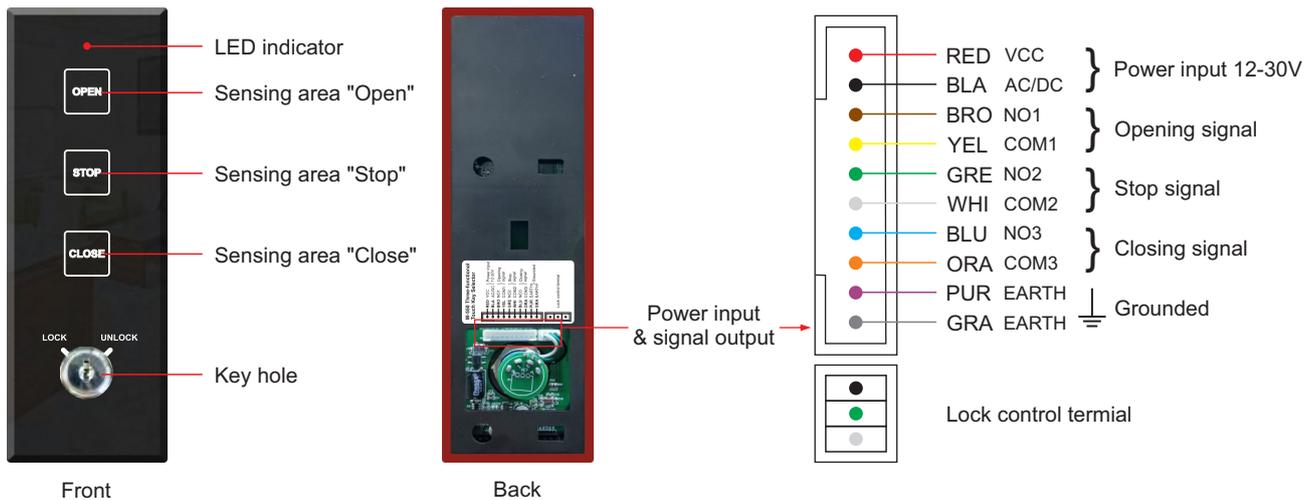

1 Safety instruction

Thank you very much for purchasing this products, in order to use it correctly, please read the following carefully.

2 Product overview

3 Function instructions

1, LED indicator: When you touch the "OPEN" "CLOSE" "STOP" sensing area, the LED indicator is on.

2, Sensing: In standby state, touch the "OPEN" "CLOSE" "STOP" sensing area, the corresponding signal pin NOx, COMx will output a short circuit signal for 1 second.

Remarks: If the power supply interference is too large, it may cause distortion of the induction sensitivity, which can be equipped with a common mode inductor for suppression.

4 Technical parameters

Power input:	AC/DC 12-30V	External dimension:	185(L)x65(D)x18.5(W)mm
Standby current:	23mA(DC 12V)	Fixing hole size:	171(L)x51(D)x12(W)mm
Working current:	25mA(DC 12V)		

5 Packing List

NO.	ITEM	PCS	REMARK
1	3-selector	1	
2	Instruction	1	5.5 meters
3	10-pin wiring	1	
4	Key	2
